**Understanding
the Deaf
&
Their Culture**

As part of PTK's Honors in Action project, ASL instructor Rebecca Maxey Thomas gave a very educational and inspirational presentation on "Understanding the Deaf and Their Culture". The presentation took place at the Cambridge Campus of ARCC on Tuesday, May 2nd, 2017. Participants gained a lot of insight into the best way to communicate with, and support the Deaf culture. We thank Instructor Thomas for sharing her presentation and experiences with us!

Leadership's Corner:

Adele Olson: Vice President of Leadership

Hi my name is Adele Olson I am currently finishing my AA degree here at ARCC this summer. Next fall I plan to transfer to Winona State to major in geoscience geology (the study of rocks). I joined PTK because I like learning and being involved with others and my community. PTK allows me to get to know others better, and gives me something else to do other than homework. Through PTK I have learned many different things and I have met many different people from all around the United States. PTK is great and I enjoy being in it!
